Welcome in Jesus' Name

Lutherans believe that Jesus Christ is present in the Sacrament so that we receive His true body and blood along with the bread and wine (Mark 14:22, 24; 1 Corinthians 10:16). We further believe that in this Sacrament, we receive the forgiveness of sins (Matthew 26:28) and strength to live an improved Christian life (Galatians 2:20). A worthy communicant is one who is truly repentant of his/her sins and who resolves to amend his/her life (1 Corinthians 11:28). Furthermore, this Sacrament is not only a communion with Christ (Matthew 18:20; 1 Corinthians 10:16), but also with one another (1 Corinthians 10:17; Acts 2:42). Those desiring to commune with us for the first time should register with the pastor in his office BEFORE the service begins.

June Is Alzheimer's and Brain Awareness Month

10 Early Signs and Symptoms of Alzheimer's

1. Memory loss that disrupts daily life. One of the most common signs is memory loss especially of recently learned information. Others include forgetting important dates and asking the same questions over and over.
2. Challenges in planning or solving problems. Some people may experience changes in their ability to develop or follow a plan or work with numbers. They may have trouble following a familiar recipe or keeping track of monthly bills.
3. Difficulty completing familiar tasks at home, at work or at leisure. Sometimes people may have trouble driving to a familiar location, managing a budget or remembering the rules of a favorite game.
4. Confusion with time or place. People with Alzheimer's can lose track of dates, seasons and the passage of time. They may have trouble understanding something if it is not happening immediately. Sometimes they may forget where they are or how they got there.
5. Trouble understanding visual images and spatial relationships. For some people, having vision problems is a sign of Alzheimer's. They may have difficulty reading, judging distances and determining color or contrast, which may cause problems with driving.
6. New problems with words in speaking and writing. People with Alzheimer's may have trouble following or joining a conversation. They may have problem finding the right word or call things by the wrong name like calling a watch a hand-clock.
7. Misplacing things and losing the ability to retrace steps. They may put things in unusual places. They may accuse others of stealing.
8. Decreased or poor judgment. For example they may use poor judgment when dealing with money, giving large amounts to telemarketers. They may pay less attention to grooming.
9. Withdrawal from work or social activities. They may have trouble following a favorite sports team, how to complete a hobby, or work project.
10. Changes in mood or personality. They can become confused, suspicious, depressed, fearful or anxious. They may be easily upset when out of their comfort zone.

If you notice any of these signs in yourself or others you know, don't ignore them. Schedule an appointment with your provider. Get checked. Early detection matters.
