Thank You! Thank you to the Osman LWML ladies that donated money for my Mission in Motion pledge walk at the 37th Biennial Convention of the LWML in Albuquerque, New Mexico this last week. Due to the extreme outdoor temperatures the walk was held on the second floor of the convention hall. Because of time restrictions and limited space with 1,127 walkers, I was only able to complete 2 miles, but it was an exciting effort. The donations from Osman totaled \$155 which became a part of the grand total which was \$73,674.55 at the time of the convention. Other pledges are always added later so thanks be to God for so many gracious ladies of the LWML! This money is directed to pay for the mission grants adopted by the convention. Thanks again! Brenda Hendricks

Additional Announcements

A big thanks to our small-but-mighty Osman choir for their service this year! We sang some of our old favorites and we learned and sang several of Martin Luther's less familiar hymns to celebrate the 500th anniversary of the Reformation. We also brought joy to our shut-ins with our singing. Practices will resume again in September when we'll finish out our Reformation Year and see what the 2017-2018 has to bring.

Food Safety: As we celebrate this Independence Day, let's keep our friends and families safe from food poisoning. If you're like my family, we graze all day and push the limits on leaving food out on the picnic table. According to the Center for Disease Control and Prevention you should:

- 1. Clean** hands and surfaces often. Wash your hands with soap and water. Have hand sanitizer on each picnic table. Wipe surfaces with clean cloth, dish soap and water or disposable kitchen wipes. Cooking and cutting utensils will need rinsed if washed or wipes used.
- 2. Separate.** Don't cross-contaminate. Raw meat, poultry, and seafood can spread illness-causing bacteria to already prepared foods unless you keep them separate. Don't store them in the same cooler. Don't reuse marinade that had raw meat in it.
- 3. Cook** at the right temperature. Bacteria that causes food poisoning multiplies quickest between 40 degrees and 140 degrees Fahrenheit. The safest way to tell if a food is done is with a food thermometer. Keep food hot after cooking. Wrap well and place in insulated container. Take-out food such as fried chicken should be eaten within 2 hours of purchase.
- 4. Refrigerate** promptly. Bacteria can grow in many foods within 2 hours, 1 hour if 90 degree heat. Keep perishable foods in a bowl of ice while on picnic table. Refill ice as needed. Cold freezer packs may also be used. Return to insulated cooler within recommended time.

Have good food, drink, and fellowship.
